EXPERIENCE

Electrolux Professional Group

Pordenone, IT

Data Engineer

02/2026 – Present

- Migrating legacy data from IBM DB2 and SQL Server into Oracle DB 23c, utilizing ODI for batch processing and GoldenGate for real-time synchronization
- Leading the development of a company-wide Graph Database to map product relationships and Bill of Materials (BOM), enabling product traceability and preventing customer churn to competitors and prioritizing high-margin alternatives
- Developed a full-stack Catalog to serve as a centralized store for company-wide access to data products, increasing cross-departmental collaboration
- Developed Python monitoring agents to track GoldenGate table mismatches and data integrity, implementing an automated notification system for the data team

Junior Data Analyst Intern

09/2025 – 02/2026

- Developed an LLM-based project to structure email data, saving 200+ manual hours by automating product number code generation
- Consultants all units to design and deploy Oracle APEX and Qlik/Power BI Dashboards for all departments, translating multi-departmental needs into actionable data tools
- Designed Copilot Studio agents and Power Automate workflows to automate daily administrative tasks
- Refactored financial dashboards in Qlik and developed Copilot Studio/Power Automate agents to automate daily logistics workflows
- Managed development lifecycle within a Scrum environment using Jira for task orchestration and Confluence for technical documentation

Sinesy

Treviso, IT

Junior Business Intelligence Analyst Intern

04/2022 – 08/2022

- Developed predictive models for retail sales forecasting using ARIMA models in Python, implementing a scalable pipeline to generate weekly forecasts integrated into the Qlik platform

EDUCATION

University of Milano-Bicocca

Milan, IT

MSc in Data Science

07/2026

Cracow University of Technology

Krakow, PL

Erasmus+ Exchange Program, Computer Science

10/2024 – 06/2025

University of Udine

Udine, IT

BSc in Computer Science

10/2022

PROJECTS

Text Classification | *Python, TensorFlow*

[Repository]

Smoker Detection | *KNIME Analytics Platform*

[App]

- Optimized multiple models (Random Forest, Gradient Boosting Tree, Logistic Regression, Naive Bayes), addressing class imbalance and implementing deployment strategies

AWARDS

KNIME Machine Learning Challenge - 2nd Place [Badge]

Milan, IT

05/2024

TECHNICAL & PROFESSIONAL SKILLS

Data Engineering: Oracle Cloud (OCI), Oracle 23c, ODI, GoldenGate, SQL Server, IBM DB2, MongoDB, Lakehouse Architecture, ETL/ELT

Programming: Python, SQL (PL/SQL, SQL/PGQ), GenAI (LLMs), R, Git, Copilot Studio

BI: Oracle APEX, React, Power BI, Qlik Sense, Tableau, Power Automate

Professional Methodologies: Agile/Scrum (Jira/Confluence), Stakeholder Consulting, Requirements Gathering, Data Governance, Technical Documentation

Languages: English (Professional), Italian (Native), Spanish (Basic)
