Cracow, January 22, 2025

To whom it may concern,

I am pleased to recommend Mr. Luca Bazzetto for opportunities in the field of data science. As his professor in the Data Mining course at the Cracow University of Technology during the first semester of the 2024/25 academic year, I had the privilege of observing his academic and technical development firsthand. Mr. Bazzetto consistently distinguished himself as an exceptional student, demonstrating not only a deep understanding of data science principles but also a remarkable ability to apply them in practical, academic projects.

Throughout the course, Mr. Bazzetto exhibited a strong grasp of core data mining concepts and consistently delivered work of the highest caliber. His dedication and intellectual curiosity were evident in his outstanding academic performance, culminating in a final grade of A. He demonstrated proficiency in diverse machine learning frameworks, including Decision Trees, Support Vector Machines, Random Forest, and regression techniques, underscoring his adaptability and technical versatility. He meticulously preprocessed datasets, optimized hyperparameters through cross-validation, and rigorously evaluated performance.

Beyond his technical skills, Mr. Bazzetto is a highly motivated, quick-learning, and results-driven individual. His passion for data science, combined with his strong work ethic and problem-solving mindset, positions him as an ideal candidate for roles requiring analytical rigor and innovation. I am confident he will bring dedication, creativity, and excellence to any team he joins.

In summary, I highly recommend Mr. Luca Bazzetto without reservation. He possesses the technical expertise, problem-solving abilities, and professional demeanor necessary to excel in data science roles. I am confident he will make meaningful contributions to any organization and welcome the opportunity to provide further details about his qualifications.

Sincerely,

Barbara Borowik, PhD
